Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Remarks

1. Applicant's remarks filed on 1/23/04 have been fully considered but they are not persuasive.

The Applicant presents an argument of which Egawa et al's reference fails to disclose or suggest such features including "an additional sequence of K pictures is inserted at the switching point between two sequences".

However, after careful scrutiny of the Egawa et al's reference, the Examiner must respectfully disagree, and maintain the grounds of rejection for the reasons that follow.

In response, Egawa et al discloses that "... stuffing bits are added before the inserted sequence STREAM2 ..." (col. 7, lines 1-4). In other words, stuffing bits (Nstuff) are additional sequence of K pictures being inserted at the switching point between two sequences as shown in Figs. 2A and 6.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

3. Claims 1, 3, and 7-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Egawa et al (5,534,944) as previously discussed in the Last official action as Paper 6.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Egawa et al (5,534,944) in view of Chen et al (5,917,830) as previously discussed in the Last official action as Paper 6.

Allowable Subject Matter

6. Claim 5 is objected to as being dependent upon a rejected base claim 1, but would be allowable: if claim 5 is rewritten in independent form including all of the limitations of the base claim 1 and any intervening claims. Dependent claim 5 recites the novel feature of steps wherein the second sequence is cut at a third switching point, in order to be replaced by the first one, and at the third switching point additional pictures are similarly inserted until the first old picture to occur is an I picture, the first old sequence being then re-inserted.

The art of record fails to anticipate or make obvious the novel feature as specified in the claim 5. Accordingly, if the amendments are made to the claims listed above, and if rejected claims are canceled, the application would be placed in condition for allowance.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2613

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
